UNITED NATIONS WAR CRIMES COMMISSION
(FAR EASTERN AND PACIFIC SUB-COMMISSION)

List of War Criminals and Material Witnesses

(JAPANESE)

The following list of Japanese War Criminals and Material Witnesses are subject to immediate capture and detention by the Allied powers. The persons listed as War Criminals are named as such where the Sub-Commission is satisfied that there is, or will be at the time of trial, sufficient evidence to justify their prosecution. Each of the persons have been classified according to the evidence presently at hand. The following classification of cases is followed by the Sub-Commission:

- A-1 cases against named individuals where evidence is sufficiently complete to charge them as actual perpetrators of war crimes.
- A-2 cases against enemy military and civilian personnel where evidence is sufficiently complete to charge them as having been concerned in the commission of war crimes, either by having encouraged them, condoned in them, or in any other way shown their responsibility for them.
- B cases not falling under A-1 or A-2, but where any named enemy individual or military or civilian enemy personnel in authority should be held for interrogation as material witnesses after the cessation of hostilities.
